## Meeting with the Conseil du trésor on October 11

### Be visible!

**A**s mentioned in the September issue of *Info-ouvriers*, visibility actions in support of the CSN-FTQ-CSQ-SFPQ inter-union coalition in its process with the Conseil du trésor are again on the rise. Workers are wearing stickers on the theme Améliorons nos conditions, Ensemble, l'heure est aux solutions (Improve our conditions, Together, It's time for solutions), and the CSN and its federations are organizing two noon rallies, on Wednesday, October 10 and Thursday, October 11, to focus on the meeting with the Conseil du trésor on Thursday, October 11.

These actions are aimed at telling management that it's time to drop the stalling tactics and instead start looking for concrete solutions to the on-going problems in the attraction and retention of skilled workers.

#### In health care and social services

The Centre hospitalier de l'Université de Montréal (CHUM) has been chosen for the organization of a first event in Parc La Fontaine across from Notre-

Dame hospital: a lunch-hour rally from 11:30 a.m. to 1:30 p.m. Like many other institutions in the public system, Notre-Dame, Hôtel-Dieu and Saint-Luc hospitals – all now part of the CHUM – are experiencing severe daily problems in attracting and retaining staff.

#### In education

For the schoolboard sector, there will be another lunchtime rally the same day in front of the head office of the Commission scolaire de Montréal, 3737 Sherbrooke St. East, from 11:30 a.m. to 1:30 p.m. Here too, skilled trades personnel are confronted with the consequences of problems in the attraction and retention of personnel.

We urge workers in these institutions to participate as much as possible. We also strongly encourage people to wear the stickers.

*Make yourselves visible!*

**On Wednesday, we're visible  
and we demand recognition for skilled workers!**
