Coverage modified HEALTH INSURANCE (compulsory participation)

Participation in one of the Health Insurance (Health 1, 2 or 3) is compulsory, unless entitled to an exemption. To be exempted from coverage, eligible employees must prove that they and their dependents are insured under another group insurance plan with a similar drug coverage.

Coverage Options and Statuses

Participants may choose a coverage option (Health 1, Health 2 or Health 3) and a coverage status (Individual, Single-Parent or Family) for their Health Insurance. As of **July 1st 2021**, coverage status chosen by the participant is applicable to the spouse and dependent children. Participants must maintain their participation to the chosen option (Health 2 or Health 3) for at least **36 months** before they can choose a less generous coverage option, unless an event stated in the contract occurs (a birth or a separation, for example).

Specifications Regarding Drug Reimbursement: If an insured chooses to purchase an eligible innovative drug instead of any existing generic equivalent, the amount of reimbursement will be determined in accordance with its lowest cost generic equivalent. The amount that is included in the annual out-of-pocket is the one the insured would have paid should they have bought this lowest cost generic equivalent. However, it is possible to obtain a reimbursement based on the cost of the innovative drug that cannot be substituted for medical reasons by submitting the appropriate form duly completed by the attending physician, provided the request is approved by SSQ. **To be eligible, drugs must be available only by medical prescription.**

SSQ Insurance recommends that all group insurance participants comply with the Government of Canada's travel advisories. For more information, please consult the FAQ at ssq.ca/en/coronavirus/travel.
